#### VIRTUAL PARTICIPATION INFORMATION

## Ex. 6 Personal Privacy (PP)

**IMPORTANT NOTE about using computer audio with WebEx** – For USACE-hosted WebEx meetings, some participants have reported they do not receive the option to “join with computer audio” when they log on to the online meeting (or that joining with computer audio results in very poor audio quality). We suggest logging in early to the meeting (or doing a test run) to give yourself additional time to connect to the meeting audio via your phone, if necessary. You can join by phone either by having the WebEx platform call your phone or yourself dialing the below phone info when you join (see step-by-step guide attached to meeting invite).
